

POST- OP SELECTIVE LASER TRABECULOPLASTY (SLT) EYE DROP INSTUCTIONS

You have been given a prescription for Pred Forte eye drops. **AFTER** the laser treatment please begin using these drops in the treated eye as follows:

- Immediately following the laser treatment, instill one drop every hour until bedtime.
- The following morning begin using Pred Forte four times a day for the next three days, then discontinue use or as directed by your physician.

Please feel free to contact our office at 440-892-3931 if you have any questions or concerns.
